

Myślenice, 30th March 2020

*Dear Sir or Madam,*

**TFKable Group communication update on the SARS-CoV-2 virus Coronavirus COVID-19:**

TELE-FONIKA Kable SA continues to closely monitor all information related to the status of the COVID-19 pandemic; this includes the recommendations and instructions of local, national and international organisations.

With the introduction of external regulations and acknowledging our employees' access to news of the pandemic, we have for several weeks, been conducting regular safety bulletins through internal newsletters, to global TFKable Group companies. Additionally, at the end of March 2020, we launched an internal information service called 'TFPortal', offering the latest news and resources on COVID-19.

The focus of the TFKable Group pandemic response include:

The Health & Safety of Employees; Continuity of Production & Orders; Minimizing Supply Chain Disruption; Preserving Financial Liquidity.

As of 30th March 2020, the health protection procedures and preventive measures that we have introduced, are proving to be effective; whilst not impacting on TFKable Group operational activities. However, due to the dynamic situation, order delivery dates may be rescheduled.

The latest situation can also be found on our TFKable Group website, or by contacting us by email or phone.
